LUCKY

K E N O

Pick your lucky numbers and get ready for Keno with a twist. Lucky Keno is super simple to play and all you need to do is choose 1-10 lucky numbers between 1-80. Then, watch as 20 numbers are drawn; the more matches you have, the more you win.

But, the real surprise is... if you are playing 10 numbers at a time, then an additional 3 lucky numbers are drawn by the game at the same time. If you match all 3 lucky numbers, you get to spin the Multiplier Wheel that could multiply your bet amount by up to 100 times. The Multiplier Wheel win amount is added to your main game original win amount.

## CONFIGURATION
