GAME FEATURES

LOCK N SPIN

As the reels spin, the Chickens perched above the reels collect their matching colour Chicken Coins, and there is the possibility that the LOCK N SPIN bonus feature may trigger. Then, based on the combination of Chickens that activated the Bonus, determines the starting coins and coins during the feature.

- Each Blue Chicken Coin that appears during the feature awards a random value or Prize Coins worth up to 250x the total bet.
- Each Red Chicken Coin that appears activates the Multiplier which multiplies all other coins by 2x and turns into random values.
- Each Green Chicken Coin that appears activates the Collector which collects the values from all other coins.

The bonus starts with 3 respins and all coins remain sticky, plus each new coin that lands resets the respins to 3. The bonus feature ends when no more respins remain or all 15 positions are filled, in which case the GRAND PRIZE is awarded.
