DIGIPAYS

It's all in the numbers... Yes, when you play Digipays, the digits are the keys to unlocking fortunes that can be yours. In this simple but highly entertaining slot, what you see is what you get, which means the bigger the numbers that land on the reels, the bigger the potential payouts.

Digipays is a 3x3 slot with a twist, that promises to get your heart pumping. All it takes is just 2 consecutive digits to land on a payline to ignite your winning streak. The number becomes a multiplier and multiplies your bet. Watch out for the Respins symbol that triggers 3 respins, where all digits become sticky. Respins deliver even more digits for bigger multipliers and massive payouts.

Get the Respins action started sooner with the Boost option which adds extra Respins symbols to the reels and boosts your odds of activating the Respins feature.

What are your lucky digits?
