GAME FEATURES

TUMBLING TILES

After a winning combo, the winning symbols are paid and burst to make way for new symbols to tumble down and bring possibly more wins.

BURST FEATURE

After a winning symbol bursts, it marks the position and after a second consecutive burst of a symbol in the same position, a multiplier of 2x is applied, which doubles after each consecutive burst in that position up to a super delicious 64x. Plus, multipliers are summed if they appear in the same winning combinations.
